

## *In the Top*

The ISEC is an institution of superior teaching in the area of the engineering that promotes alliances and partnerships with several organizations and enterprises. In this way, contacts are established with the potential employers and the students, making easy the knowledge and adaptation of the courses to the business reality. There is a healthy communication with the community, and so also a great opening to the projects developed by the students of the institution.

The interaction with the University itself of Inhabitant of Coimbra and other institutions of healthy teaching aspects what they demonstrate that the ISEC is turned for the outside and that it is preoccupied in a lot of abridgment develops works around a net of institutions.

The ISEC makes possible you to have a superior teaching of quality and of finding job in which you study yourself. For besides, there are countless the cases of students' success of the ISEC in the enterprises in which they are working.

The practical of forming professionals of success who are innovatory and enterprising is already a factor characterized of as the institution claims to be recognized.

in order to reach the top, the ISEC is a safe and winning bet !
