

Eighth Edition

Maribeth Price

South Dakota School of Mines and Technology

Mastering ArcGIS

Table of Contents

PREFACE VII

INTRODUCTION 1

What Is GIS? 1

Concepts.....	1
What is GIS?.....	1
A history of GIS.....	3
What can a GIS do?.....	3
New trends and directions in GIS.....	4
What do GIS professionals do?.....	6
GIS project management.....	6
Learning more about GIS.....	8

CHAPTER 1. GIS DATA.....9

Mastering the Concepts 9

GIS Concepts.....	9
Representing real-world objects on maps.....	9
The vector model.....	9
Modeling feature behavior with topology.....	11
The raster model.....	11
Coordinate systems.....	13
Map scale.....	14
Data quality.....	15
Citing GIS data sources.....	17
About ArcGIS.....	18
ArcGIS overview.....	18
ArcMap documents.....	19
Data files in ArcGIS.....	20
Internet data services.....	23
Summary.....	25
Chapter Review Questions.....	26

Mastering the Skills 27

Teaching Tutorial.....	27
Exercises.....	42

CHAPTER 2. MANAGING GIS DATA..... 43

Mastering the Concepts 43

GIS Concepts.....	43
Characteristics of GIS data.....	43
Organizing data files.....	44
Finding data for a project.....	45
Importing and exporting data.....	47
About metadata.....	47

About ArcGIS.....	48
Map documents and shared data.....	48
Understanding file locks.....	51
Using ArcCatalog to manage files.....	52
Using ArcToolbox.....	53
Documenting data.....	55
Sources for GIS data.....	56
Summary.....	57
Chapter Review Questions.....	58

Mastering the Skills 59

Teaching Tutorial.....	59
Exercises.....	72

CHAPTER 3. COORDINATE SYSTEMS73

Mastering the Concepts 73

GIS Concepts.....	73
About coordinate systems.....	73
Geographic coordinate systems.....	74
Map projections.....	76
Raster coordinate systems.....	78
Common projection systems.....	80
Choosing projections.....	82
About ArcGIS.....	83
Labeling coordinate systems.....	83
On-the-fly projection.....	85
Projecting data.....	85
Troubleshooting coordinate system problems.....	85
Summary.....	87
Chapter Review Questions.....	88

Mastering the Skills 89

Teaching Tutorial.....	89
Exercises.....	106

CHAPTER 4. MAPPING GIS DATA..... 107

Mastering the Concepts 107

GIS Concepts.....	107
Choosing symbols for maps.....	107
Types of data and types of maps.....	109
Displaying rasters.....	113
Classifying numeric data.....	117
About ArcGIS.....	119
Summary.....	121
Chapter Review Questions.....	122

Mastering the Skills 123

Teaching Tutorial.....	123
Exercises.....	138

CHAPTER 5. PRESENTING GIS DATA	139	The Editor toolbar	207
Mastering the Concepts	139	Feature templates.....	209
GIS Concepts	139	How editing works	210
Determine the map objective.....	140	Summary	213
Select the data.....	141	Chapter Review Questions	214
Arrange the map elements	143	Mastering the Skills	215
Symbolize the data	146	Teaching Tutorial.....	215
Review the draft	148	Exercises.....	230
Edit and improve	151	CHAPTER 8. QUERIES	231
About ArcGIS.....	152	Mastering the Concepts	231
Maps in ArcGIS	152	GIS Concepts	231
Assigning map scales.....	152	About queries	231
Setting up scale bars.....	153	Attribute queries.....	232
Labeling, text, and annotation.....	154	Spatial queries	234
Summary	156	Extraction functions	236
Chapter Review Questions	157	About ArcGIS.....	237
Mastering the Skills	158	Processing layers with selections	237
Teaching Tutorial.....	158	Interactive selection	238
Exercises.....	172	Selecting by attributes.....	239
CHAPTER 6. ATTRIBUTE DATA	173	Selecting by location.....	240
Mastering the Concepts	173	Choosing the selection method	240
GIS Concepts	173	Managing results from queries.....	241
Overview of tables.....	173	The Selection window.....	242
Database management systems.....	174	Summary	243
Queries on tables	174	Chapter Review Questions	244
Joining and relating tables.....	175	Mastering the Skills	245
Statistics on tables	179	Teaching Tutorial.....	245
Field types	181	Exercises.....	258
About ArcGIS.....	183	CHAPTER 9. SPATIAL JOINS.....	259
Tables in ArcGIS.....	183	Mastering the Concepts	259
Editing and calculating fields.....	184	GIS Concepts	259
Importing tables	185	What is a spatial join?.....	259
Mapping <i>x-y</i> coordinates from a table.....	187	Cardinality.....	261
Summary	188	Types of spatial joins.....	262
Chapter Review Questions	189	Feature geometry and spatial joins	263
Mastering the Skills	190	Coordinate systems and distance joins	265
Teaching Tutorial.....	190	About ArcGIS.....	266
Exercises.....	203	Choosing the join type	266
CHAPTER 7. BASIC EDITING	205	Setting up a spatial join	267
Mastering the Concepts	205	Summary	272
GIS Concepts	205	Chapter Review Questions	273
Snapping features	205	Mastering the Skills	274
Adjacent polygons.....	207	Teaching Tutorial.....	274
About ArcGIS.....	207	Exercises.....	288

CHAPTER 10. MAP OVERLAY AND GEOPROCESSING 289

Mastering the Concepts	289
GIS Concepts	289
Map overlay	289
Other spatial analysis functions.....	294
About ArcGIS.....	296
About geoprocessing	296
Summary	299
Chapter Review Questions	300

Mastering the Skills	301
Teaching Tutorial.....	301
Exercises.....	317

CHAPTER 11. RASTER ANALYSIS 319

Mastering the Concepts	319
GIS Concepts	319
Raster data	319
Raster analysis.....	320
About ArcGIS.....	329
Storing rasters	329
Using Spatial Analyst.....	330
Summary	333
Chapter Review Questions	334

Mastering the Skills	335
Teaching Tutorial.....	335
Exercises.....	350

CHAPTER 12. EDITING AND TOPOLOGY 351

Mastering the Concepts	351
GIS Concepts	351
Topology errors.....	351
Topology rules and tools.....	352
Editing complex polygon shapes.....	353
Combining features.....	354
Buffering features.....	356
Stream digitizing.....	356
About ArcGIS.....	357
Changing existing features.....	357
Editing with map topology	358
Editing with planar topology.....	359
Summary	360
Chapter Review Questions	361

Mastering the Skills	362
Teaching Tutorial.....	362
Exercises.....	378

CHAPTER 13. EXTENDING GEODATABASES..... 379

Mastering the Concepts	379
About ArcGIS.....	379
About geodatabases.....	379
Designing and creating geodatabases	381
Creating feature datasets.....	383
Default values.....	384
Domains.....	384
Split and merge policies	386
Subtypes	387
Geodatabase annotation	388
Summary	390
Chapter Review Questions	391

Mastering the Skills	392
Teaching Tutorial.....	392
Exercises.....	408

CHAPTER 14. METADATA..... 409

Mastering the Concepts	409
GIS Concepts	409
The metadata standards.....	409
Data quality issues	411
Metadata format.....	415
Acquiring metadata.....	416
Metadata development.....	417
About ArcGIS.....	418
Metadata management in ArcGIS.....	418
The metadata editor.....	419
Metadata templates.....	420
Summary	422
Chapter Review Questions	423

Mastering the Skills	424
Teaching Tutorial.....	424
Exercises.....	433
