COIMBRA INSTITUTE OF ENGINEERING

COIMBRA INSTITUTE OF ENGINEERING

ISEC (Coimbra Institute of Engineering) has as its mission the creation, transmission and diffusion of culture, science and technology, being responsible for providing a higher education for the exercise of professional activities in the field of Engineering and promoting the development of region.

ITS GOAL is to offer high level courses in order to teach, prepare and give the necessary skills to future Engineers.

POLYTECHNIC OF COIMBRA

Coimbra Institute of Engineering is one of the six schools that belong to the Polytechnic of Coimbra, and is known with this designation for four decades.

MORE THAN 100 YEARS OF HISTORY

Nevertheless, this institution is responsible for teaching courses of engineering for 90 years in a row, which makes Coimbra Institute of Engineering one of the most important and remarkable schools in the Portuguese educational system.

Coimbra Institute of Engineering is always aware to the scientific, technical and educational evolution, carefully conscious of new matters, like innovation, market needs and all the important issues regarding the business and industrial community.

This proximity to the enterprise world makes the difference and becomes in a distinct mark of its brand - offering high level courses, toward highest percentage of employment of its bachelors and masters.

MASTER COURSES

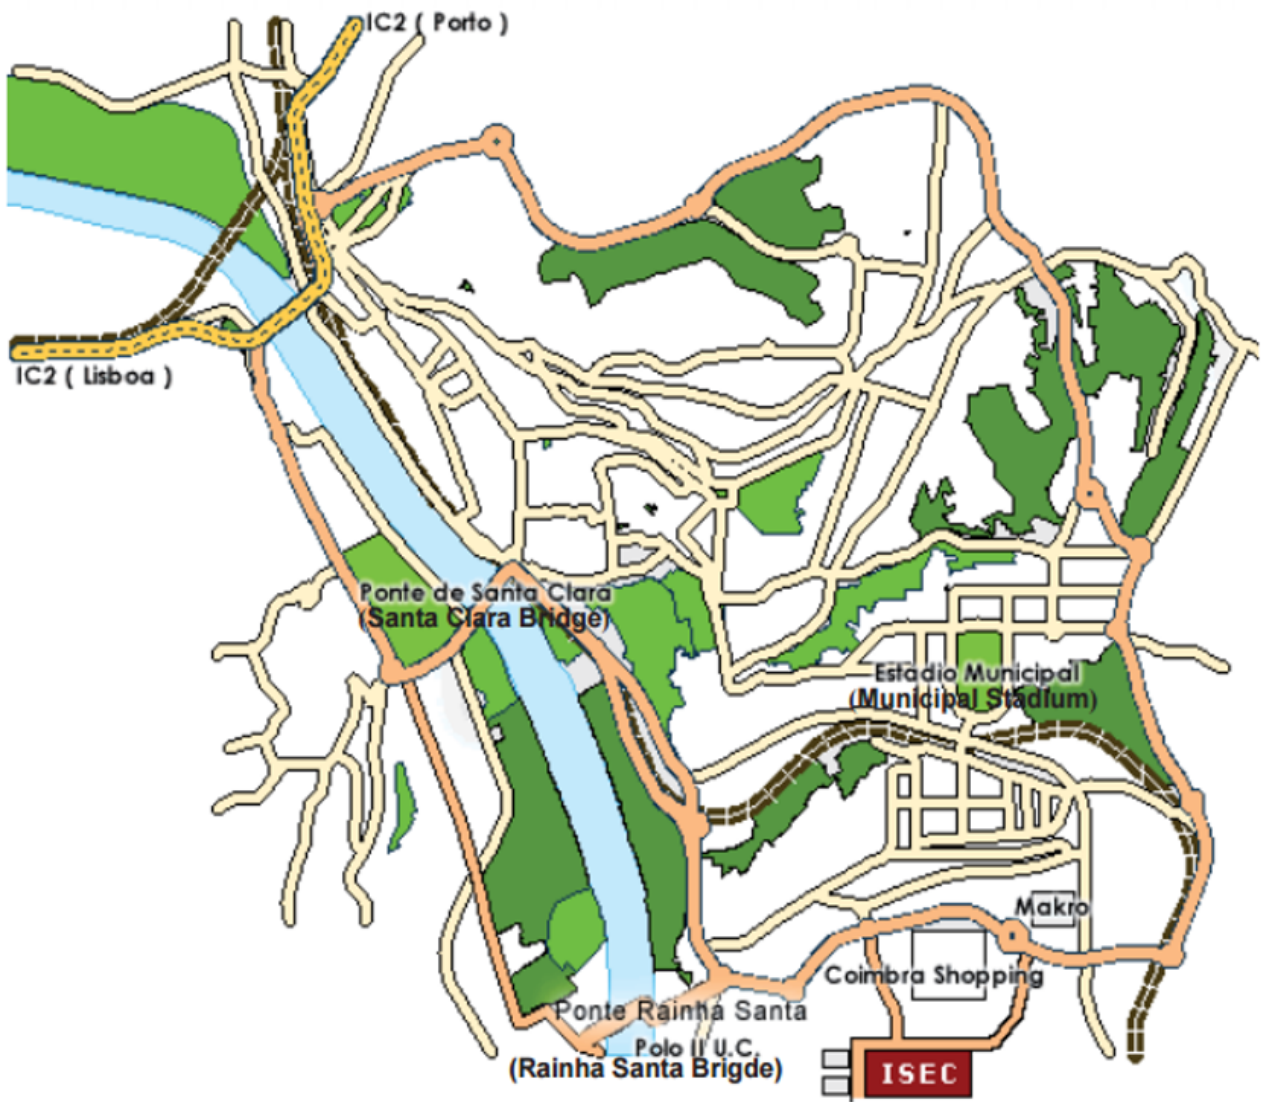

- Biomedical Instrumentation
- Civil Engineering
- Electromechanical Engineering
- Electrical Engineering
- Engineering and Industrial Management
- Engineering and Management of Physical Assets
- Mechanical Engineering
- Informatics Engineering
- Erasmus Mundus Master in Sustainable Transportation and Electrical Power Systems
- Smart and Sustainable Cities

BACHELOR COURSES

- Bioengineering
- Biomedical Engineering-
Branch of Bioelectronics
- Civil Engineering
- Electromechanical Engineering
- Electrical Engineering
- Engineering and Industrial Management
- Informatics Engineering
- Mechanical Engineering
- Computer Science
(European Course)
- Sustainable City Management
